The Golden Rules & Guidelines of St. Aloysius Alumni Whatsapp Group

1. **Respect the purpose and objective of each group.** It is an intellectual, nonpolitical & nonsectarian school welfare group. This "Whatsapp work group" shouldn't be used to send messages or content of a personal nature, as well as groups of friends and family shouldn't be used for business purposes. **That's what direct messages are for.**
2. **Don't use group to just to send memes, videos, pictures and news, without reading and reacting to the content shared by others.** We have created this group only for Alumni & School related discussions and its project related activities. Please stick to the mission statement of Alumni. Irrelevant content does not belong here. The purpose of this group is to establish collective conversations with others, but when you only place content, but never read or interact, the existence of such groups loses their purpose. **No one likes monologues.**
3. It is advised **not to share any jobs postings.** We have a separate and dedicated group for Job Openings. Job Seekers or Job Providers may request admin to join that Group
4. Announcement of event of other groups needs approval from Admin before circulation
5. Do not advertise any business on this group without approval from Admins.
6. No fund raising message to be circulated in group without written permission from committee.
7. **Never send content, information or "news" that HASN'T been verified.** Placing content whose authenticity has not been definitively proven can be VERY dangerous and harm many people. **Whatsapp is infested with many of these things** and it's better to put a stop to them than to be guilty of spreading them.
8. **If you feel uncomfortable in a group for any reason, feel free to leave or "mute" the notifications.** It's better to be criticized for leaving than for always complaining. Don't be offended if others leave. Not everyone wants the same information. Do politely excuse yourself before you leave a group.
9. **Before sending a complaint to a group, identify the "administrator" and share your thoughts with him.**
10. **Don't get angry if someone doesn't respond to your messages in a group.** No one is obliged to do so. It is better to send him/her a direct message.
11. Mutual respect is needed during discussions. Respects everybody's viewpoints even if not aligned with ones views.
