

## YOUTH ACTIVE FOUNDATION –CAP INDIA

St. Aloysius Degree College has established a promising partnership with Career Advancement Programme (CAP) India, aiming to enhance students' readiness for national-level competitive examinations. The Memorandum of Understanding (MoU) between the college and CAP India signifies a strategic alliance to equip students with the requisite knowledge and skills essential for excelling in such rigorous assessments. CAP

India, renowned for its comprehensive preparatory programs, offers a robust platform for aspiring candidates, particularly focusing on the demanding UPSC preliminary examinations. This collaboration enables students from diverse educational backgrounds to access specialized training tailored to meet the exacting standards of these examinations. On November 2nd, 2019, the inaugural phase of this initiative witnessed the participation of 65 students, including those

from St. Aloysius Degree College, in an online UPSC preliminary entrance examination training session. Notably, among the participants, the highest score achieved stood at an impressive

93.5%, reflecting the efficacy of the training program in enhancing students' performance. Building upon the success of the initial endeavor, the second training session for the UPSC preliminary examination is scheduled to take place on January 14th, 2020. This forthcoming session promises to further augment

students' preparation and readiness, leveraging the expertise and resources provided by CAP India. The collaboration between St. Aloysius Degree College and CAP India underscores a shared commitment to nurturing academic excellence and facilitating holistic student development. Through such concerted efforts, students are empowered to confidently pursue their aspirations and excel in competitive examinations at the national level, thereby contributing to their personal growth and broader societal advantage

#### Career Advancement programme for the students

CAP India, an initiative of CBCI through Youth Activ8 Foundation and St. Aloysius Degree College in Bangalore, aims to nurture young leaders for civil service and political roles. Inspired by the National Science Talent Search program,

it prepares youth for national and state-level competitive exams through structured courses. These courses, offered at a nominal fee starting at Rs. 400 and conducted on weekends, target careers in civil services, banking,

management, and public sectors. By providing coaching and guidance, CAP India encourages leadership development and employment opportunities. Upon successful completion of training and exams, students receive a certificate, paving their way for future endeavors.
