

MANIPAL HOSPITAL

In a significant development aimed at fostering community well-being, St. Aloysius College has entered into a strategic partnership with Manipal Hospitals through the signing of a Memorandum of Understanding (MoU) as part of the Manipal Neighbourhood Connect initiative. This collaboration heralds a new era of accessible healthcare services for the college community and surrounding neighborhoods.

The Manipal Neighbourhood Connect program underscores the commitment of Manipal Hospitals to extend its healthcare expertise and resources beyond its premises, reaching out to local communities. Through this partnership, St. Aloysius College students, faculty, and staff gain access to a comprehensive range of medical facilities and services provided by Manipal Hospitals.

One of the key benefits of this collaboration is the availability of specialist doctors across various disciplines, including orthopedics, mental health care, neurology, and more. This access to expert medical advice and treatment ensures that individuals can address their healthcare needs effectively and efficiently

Moreover, Manipal Hospitals' commitment to community welfare is evident in the provision of additional services such as ambulance facilities and wheelchair assistance. These resources play a crucial role in ensuring timely access to medical care and support for individuals with mobility challenges.

As a gesture of appreciation for the partnership, members of the St. Aloysius College community are issued a privilege card. This card entitles them to exclusive benefits and discounts when availing of medical services at Manipal Hospitals, further enhancing accessibility to quality healthcare.

By forging this collaborative alliance, St. Aloysius College and Manipal Hospitals exemplify the power of synergy between educational institutions and healthcare providers in promoting holistic well-being. This initiative not only addresses the healthcare needs of the college community but also fosters a culture of proactive health management and community engagement.
